

REMARKS

The above amendment to claim 22 reinstates some language deleted by earlier amendment, while addressing the Examiner's concerns regarding limiting the attachment of the stabilizing link member to only one of the support arms. It is this amendment that Applicant believes warrants this Request for Continued Examination.

The above amendment to claim 23 reverses the Examiner's earlier amendment, to conform with amended claim 22.

Claim 27, presented above, is the correct version of the claim as amended in the preliminary amendment filed on February 3, 2005 with Applicant's Request for Continued Examination. The version included in the listing presented with Applicant's response of April 20, 2005 had not reflected such earlier amendment.

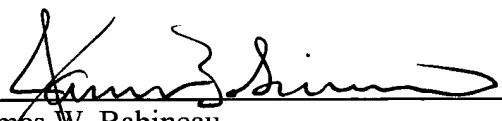

Applicant asks that all claims be examined and re-allowed.
